Coffee Report – €45,200 in Identified Opportunities

Executive Summary
I analyzed one year of data **(€112,245)** and identified **€45,200** in annual opportunities through three targeted initiatives.

What Happened (Descriptive)

- Annual revenue: **€112,245**
- Four products drive 74% of revenue (American, American with Milk, Latte, Cappuccino)
- Best month: March **(€15k)**; weakest month: April **(€5.7k)**
- Peak hours vary month to month

Why It Happened (Diagnostic)

1. Inefficient menu – 50% of products generate only 26% of revenue
2. Fixed staffing – missed sales during variable peak hours
3. Seasonality not leveraged – recurring patterns remain untapped

What To Do Next (Prescriptive)

1. **"Top 4" Menu + Combos**
    - Focus on products generating 74% of revenue
    - Introduce premium combos (+€1.20 per ticket)
    - **Impact:** +€20,000/year
2. **Smart Staffing**
    - Flexible shifts aligned with monthly peak hours
    - **Impact:** +€16,800/year
3. **Seasonal Promotions**
    - Capitalize on recurring demand in March, September, and February
    - **Impact:** +€8,400/year

Next Steps

- Implement "Top 4" menu within 7 days
- Adjust staffing schedules next week
- Measure results within 30 days
